Scientific Name	Common Name	Habit Family
-----------------	-------------	--------------

Notes: Plants along Al A. Alanson Trail from the Robert Norris Research Station within the UC Granite Mountains Desert Research Center, closed to unauthorized public access.

Scientific nomenclature follows Flora of North America Committee (1993-2010), Bailey and Bailey (1976) for ornamentals, and CNPS (2010) for special-status species (**bold typeface**).

An * indicates non-native taxa that have become naturalized or persist without cultivation. ? = uncertain identification

A + indicates ornamental or agricultural plant species that are actively cultivated.

Common names follow Abrams and Ferris (1960), Bailey and Bailey (1976) for ornamentals, and Hickman (1993), Niehaus and Ripper (1976), DeGarmo (1980), and Weeden (1986) for natives; some are devised by the author.

Growth habit definitions:

AF = annual fern or fern ally.

AG = annual grass or graminoid.

AH = annual herb.

AV = annual vine.

BH = biennial herb.

PF = perennial fern or fern ally.

PG = perennial grass or graminoid.

PH = perennial herb.

PV = perennial vine.

S = shrub.

T = tree.
